

# You've been TAGGED!

Curing Sanfilippo Syndrome is a cause dear to our hearts. It's a disease like Alzheimer's, but in children. It's a real-life horror story.

There's no cure yet, but there IS hope. Regular people are making a difference. So we've tagged you in the hopes that you'll learn more and maybe want to join us in helping these kids.

Thanks for your consideration!
